

December 22, 1971

STATE OF SOUTH CAROLINA )  
 )  
COUNTY OF RICHLAND ) BEFORE THE PUBLIC SERVICE COMMISSION

IN RE: Request of Herbert S. Cramer for ) DOCKET NO. 15,812  
a permit to finish drilling well )  
now under construction on Hilton ) ORDER NO. 15,964 ✓  
Head Island, South Carolina. )

TO: HERBERT S. CRAMER

The South Carolina Public Service Commission received a request from Mr. Herbert S. Cramer for a permit to finish drilling well now under construction on Hilton Head Island, South Carolina.

A public hearing was held in the Commission's office on November 11, 1971, for consideration of this request at which time all interested parties were given an opportunity to be heard. George Geer, Esquire, Harvey, Harvey, Batty, Beaufort, South Carolina, representing Hilton Head Water Company, appeared in opposition to request.

An analysis of the testimony shows that Mr. Cramer is now being served by a 2" line some 800 feet plus from well to his meter; also well permit questioned for health reasons since area uses septic tank and that approval of this well permit would lead to other request for well drilling, all of which would hurt the operations of Hilton Head Water Company.

Recognizing all of the above and after consideration of all the facts, the Commission is of the opinion and so finds that well permit should be approved as it will not materially affect Hilton Head Water Company revenue or other operations at this time.

AND IT IS SO ORDERED:

BY ORDER OF THE COMMISSION:

*James H. Stuckey*  
VICE Chairman

ATTEST:

*J. M. Paul*  
Director of Administration
